“And the winner is BECOPAD”, was called out on 15 September this year in the BUGA lounge near the exhibition grounds of Munich.

The CONFRUCTA-award of the same publisher was awarded to BEGEROW within the scope of the IFW, which was held parallel to the drinktec in Munich.

Evi Brennich, managing director of the CONFRUCTA publisher:

„The jury of the editors chose to award the CONFRUCTA-award 2009 to BEGEROW out of good reason - represented through their managing director Mrs. Christa Tesch - for her merits and for the over many years of problem orientated development of the first mineral free filter medium BECOPAD.“

On the following day and within the program of the congressional event IFW, F&E group manager Günther Geiger presented the auditorium with an interesting technical lecture on the award winning product BECOPAD.

The CONFRUCTA award is awarded to individuals, companies or institutions that moved something in the fruit juice branch and have created new impulses through new innovations or the development of new fruit juice processing, whose quality and consumption of fruit juice has been influenced positively.

About BEGEROW:

BEGEROW is a leading system provider for demanding solutions for liquid filtration. With about 250 employees worldwide and their headquarters in Langenlonsheim, Germany, BEGEROW develops and produces technological innovative filtration mediums and filtration systems for the food and beverage industry as well as for chemical, pharmaceutical and industrial sectors.
